

JIT SQUARE LLC

CYBERSECURITY CAPABILITY STATEMENT

ABOUT US

JIT Square LLC specializes in providing cybersecurity, IT security consulting, and risk management solutions to federal, state, and local government agencies. Backed by over a decade of industry experience, our leadership has supported cybersecurity initiatives for agencies including the U.S. Department of Labor, Department of the Interior, and the Library of Congress, with expertise in NIST 800-series compliance, vulnerability management, and governance, risk, and compliance (GRC) programs. Headquartered in Stafford, Virginia, we deliver cybersecurity assessments, security operations support, and compliance-driven IT services aligned with federal security frameworks. Our focus is helping government agencies strengthen security posture, manage cyber risk, and maintain continuous compliance through experienced subject matter experts and disciplined execution.

CORE COMPETENCIES

- Cybersecurity Assessments & Security Engineering
- RMF, ATO & Security Authorization Support
- Vulnerability Assessment & Penetration Testing
- Security Operations & Incident Response
- Governance, Risk & Compliance (GRC) Programs
- IT Systems Engineering, Architecture & Lifecycle Management
- Network & System Monitoring / Splunk Implementation

PAST PERFORMANCE

- **U.S. Department of Labor – IT Security Support**
Provided cybersecurity consulting and compliance assessments aligned with NIST 800 standards. Supported vulnerability management and certification execution.
- **Department of Interior – Cyber Risk & Compliance Support**
Delivered audit support, POA&M management, and risk mitigation strategies for federal IT systems.
- **Library of Congress – IT Security Operations**
Conducted cybersecurity assessments, vulnerability analysis, and incident response coordination to enhance system security posture.
- **Kaiser Permanente – Healthcare IT & Compliance Support**
Delivered HIPAA compliance support and medical records management, ensuring alignment with healthcare data security and privacy standards.

DIFFERENTIATORS

- Proven cybersecurity support for federal agencies
- Deep expertise in NIST 800-series audits and compliance frameworks
- SME-driven risk assessments, vulnerability management, and POA&M oversight
- Proven ability to guide systems through RMF processes and security authorization
